United States Coast Guard Auxiliary

WASTE MANAGEMENT PLAN

- ✓ Nothing goes over the side.
- ✓ Cans and bottles are to be recycled.
- ✓ All other waste materials are to be stored in the galley area.

Going Out

Prior to leaving the berth, the first mate will ensure that a recycle bag has been hung in the cockpit area and a trash bag has been placed in the galley.

Underway

All hands are to place recycled items (cans and bottles) in a the recycle bag and all other trash in the galley bag. If either receptacle becomes full, the captain is to be notified so that a replacement can be put out.

Coming in

Upon returning to the berth, the captain will place the trash bags in the marina's trash receptacles and the recycled bags will be taken home for recycling.
